With over 5 years of experience as a fullstack developer with a strong front-end focus, I've worked across diverse teams in dynamic roles—from Tech Lead to DevOps. I have a deep affinity for transactional web apps, where I combine technical expertise with strategic thinking to drive measurable business results.

WORK EXPERIENCE

Kreitech

Frontend Engineer

Austin, Texas

November 2025 - Present

- Led end-to-end frontend development for custom web applications, from implementation to deployment and long-term maintenance, primarily using JavaScript/TypeScript and modern frameworks such as React and Next.js.
- Managed the full development workflow including Git, CI/CD pipelines, and DevOps practices, ensuring reliable deployments and high-performance production environments.
- Collaborated closely with engineering, product, and design teams within a custom software agency serving the U.S. market, also contributing to backend development and API integrations on selected projects.

Typescript - React - Nextjs - Tailwind - Hono - Supabase - Vercel - Vitest

Doctec World

Tech Lead

Marbella, España

November 2023 - January 2026

- Built a diverse portfolio of websites, primarily eCommerce, both from scratch and through complete rebuilds and revamps—consistently improving performance and boosting conversion rates.
- Designed and executed technical marketing strategies for eCommerce platforms by integrating advanced SEO, automation, and analytics tools, increasing qualified traffic and driving measurable CRO improvements..

Typescript - React - Astro - CSS (Styled Components) - AWS - Jest - Git Pipelines

3dids

Front-End Consultant

Valencia, España

May 2024 - May 2025

- Developed and implemented custom solutions for clients in eCommerce and web platform projects, aligning technical goals with business needs.
- Collaborated with the Liquid Developer Group to enhance project quality, performance, and scalability through continuous optimization.
- Integrated technologies such as React, Next.js, Tailwind CSS, and Node.js to improve user experience and overall web performance.

Typescript - CSS (Styled Components) - Liquid - Shopify - JQuery - Hydrogen - Jest

Desoft

Jr Front-End Developer

La Habana, Cuba

July 2021 - August 2023

- Designed and implemented interactive, highly optimized user interfaces using React, Next.js, and TypeScript—enhancing the user experience and reducing visual bugs by 40%.
- Applied design patterns and software architecture principles to improve code scalability and maintainability, enabling smoother team collaboration and faster feature delivery.
- Optimized web application performance by strategically integrating Turbopack and Webpack, achieving a 30% reduction in load times.

Javascript - SASS - HTML - Nodejs - Express - VPS - Bash - Linux

Freelance

Web Developer

Cuba/España

September 2020 - Present

- Developed custom web solutions with a strategic focus on performance, technical SEO, and accessibility—achieving up to a 50% improvement in Core Web Vitals.
- Implemented online stores and interactive platforms tailored to specific business needs, driving measurable increases in user conversion and retention.

Javascript/Typescript - React - React Native - Nextjs - Astro - CSS (Styled Components) - Vitest - Jest - Hono - Supabase - Nodejs - Express - Git - Github
